<p>1. Forwarded under separate cover are copies of documents taken from CARAVEL's file which we believe will give you a brief but comprehensive picture of CARAVEL's WOFIRM association. The one basic fact which is most apparent in CARAVEL's file is that with his growth in his Organization and the inherent responsibility, his contact with WOFIRM has declined. This is not to say that his net worth has lessened, rather the amount of time he has had for WOFIRM tasks decreased and this was most apparent after the mid-50's. As early as 1954, the course of the operation was seen to be shifting from a positive operation to a CE operation and this was accordingly written into the subsequent projects.</p> <p>2. Regarding the question whether any specific commitment has been made with CARAVEL for evacuation, it must be noted there are discrepancies in his file. We believe, however, we can justifiably say that while there has been no commitment in writing or orally to CARAVEL, we would evacuate him and his family should that contingency arise.</p> <p>3. Please advise if you have further questions on CARAVEL's background.</p>
